

The Award Winning.....

AG Dispensers

AG Mini

Where
EXCELLENCE
matters

The AG Mini dispenses hydrated lime, giving an even and economical spread over a distance of 2-3 feet.

The AG Mini is driven by a two-speed electric motor, which is powered by a re-chargeable battery giving two hours of continuous use.

Lime

The AG Mini will bed up to 160 cubicles on one fill. Distance of throw and the amount of material being dispensed can be altered on the machine. After use, the charger is connected to the Mini for re-charging the battery, taking no more than six hours.

The Award Winning.....

AG Dispenser

High speed, ease and economical use of materials

Where EXCELLENCE matters

With greater emphasis on cow comfort it is essential to make sure cubicles are well bedded. This machine has been developed especially with this in mind, enabling milk producers to bed cubicles regularly with speed and ease, minimum dust, economical use of materials and helping to meet the demands of the Dairy Farm Assurance Schemes.

"The A G Dispenser makes what was a tedious job much quicker and more pleasant. We would not be without the machine now." A.J. & S.A. White, Taunton, Somerset

The A G Dispenser has been designed to bed cubicles with sawdust, shavings, chopped straw, paper pulp, sand and lime. The Dispenser can be used on a tractor or handler, and spreads from either side and tilts flat to fill. It can save up to 50% in bedding materials due to more effective coverage in cubicles; its simple design requires extremely low maintenance, without any PTO's, chains or blowers.

Any tractor will do!

"A wonderful machine, quick and simple to use, bedding is now a one-man job" Ian Carruthers, Lockerbie, Scotland

The tilting mechanism allows the Dispenser to be tilted flat to fill when mounted on the rear of a tractor using 3 point linkage / A frame.

AG Dispenser

FOR POULTRY AND BROILER HOUSES

FS 200

The FS (Full Spread) Dispenser is a machine for bedding poultry/broiler houses. It is labour saving, gives a more even and economical use of bedding material. Growers report reduced down grading due to less lock burn. Turn-about time between crops is significantly reduced.

Suitable for use on a wide range of bobcats or loaders, can be tilted flat to fill giving a full spread arc of 20-40 feet using materials such as shavings and other pre-chopped bedding materials. 25,000 ft² can be covered in 15 to 20 minutes, spreading as much, or as little, material as required.

SPECIFICATIONS
Width: 2m Capacity: 2.2m³
Weight: Approx 555kg

"A well thought out machine with a huge saving in time and straw. What used to be a tedious one hour job can now be done in six minutes." Mr Stephen Lowe, Cheshire

AG Maxi

A Battery Operated Wheeled Sawdust Dispenser

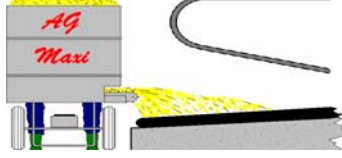

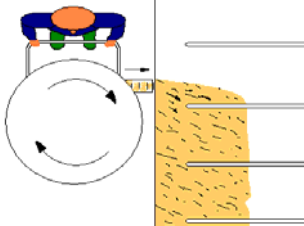

The AG Maxi has been designed to discharge many types of sawdust at high speed with a capacity to hold 2-3 25Kg bags.

Users are reporting: "This is a machine we can ill-afford to do without."

Where EXCELLENCE matters

- Variable discharge
- Spreads 3-4 feet
- All types of sawdust
- No fuses
- Reduced bedding time
- Fully re-chargeable
- High Speed Conveyor Discharge

SPECIFICATION

Weight	55Kg
Volume	215 Ltr
Discharge speed	215 Ltr/min
Discharge height	45cm
Width	78mm

AG EasiScrape

Where EXCELLENCE matters

- Fully Galvanised 6, 6'6" and 7'6" Yard Scraper.
- Cleaner yards
- Reduced scraping time
- Reduced spillage
- Follows uneven surfaces
- Easily changeable parts
- No Pivoting points

A-Frame and 3 point Linkage Standard on all Models. Built to last to the same high standard as the AG Dispensers. All Scrapers are twin bladed, using hard wearing high-impact strength rubber. With perfect elasticity, high tensile strength, good impact resistance and little elongation, the AG EasiScrape gives the very best results.

SPECIFICATION

MODEL	Capacity	Weight	Width	Depth	Height
AG EasiScrape 180	0.74 c/m	360 kg	180 cm	90 cm	46 cm
200	0.83 c/m	395 kg	200 cm	90 cm	46 cm
230	1.01 c/m	420 kg	230 cm	90 cm	46 cm
